

Oct 1 - 3, 2018

W40	Oct 1, 2018	Tue 2	Wed 3
Synthetic Biology Week (September 30 - October 6)			
8am	8am Registration	8am Registration	
	8:30am Welcome	8:30am Welcome	
	8:35am Keynote: Neuroscience + synthetic biology	8:40am Fireside chat: Go big or go home - scaling up the biofab (sponsored by Ginkgo Bioworks)	
9am	9:05am Keynote: Twenty years of synthetic biology - How far is 2018 from 1998?	9am Session: DNA data storage	
	9:25am Session: Why protein is the killer app (sponsored by Codexis)	9:25am Session: Advanced molecular manufacturing, chemicals & materials	
10am	10:10am Sponsored talk	10:10am Sponsored talk	
	10:15am Coffee break & workshops	10:15am Coffee break & workshops	
	10:15am Workshop: Dow	10:15am Workshop: Twist Bioscience	
	10:15am Focus session: The future science literacy & investing in hard tech science	10:15am Workshop: P&G	
	10:15am Focus session: Female founders and mentors (sponsored by Ginkgo Bioworks)	10:15am Focus session: Single cells sync sequencing for genome engineering (sponsored by Mission Bio)	
11am	11am Panel: Emerging security issues for the bioeconomy (sponsored by the Open Philanthropy Project)	10:45am Session: Food 2.0	
	11:35am Session: Living medicines	11:30am Fireside chat	
		11:50am Keynote	
12pm		12:10pm Sponsored talk
